

Clean and Efficient Cooking Technologies and Fuels Toolkit

Category: Information Resources

Sub-Category: Higher Education and Research

User: Project Developers

Donor: United States Agency for International Development (USAID)

Donor Countries: United States of America

Description:

Primarily aimed at bringing USG staff and external project developers and implementers up-to-speed on significant developments in the cookstove sector in recent years. The goal is to showcase, through accurate and up-to-date information and links, the manner in which cookstove projects can achieve impacts across a range of sectors, from forestry, energy and environment to livelihoods and income generation, not to mention health, school feeding, and women's empowerment. The toolkit provides an overview of how the cookstove sector is evolving, best practices and key challenges.
